MOTORBOAT TENDER MOTORBOOT
TENDER 06e

Tender 06e – Elegant and silent gliding over the water

A successful fusion of design and sportiness, powered by an innovative electric motor. This provides the slim boat with impressive propulsion and promises riding pleasure without compromise. Whether for relaxed cruising or action-packed wakeboarding, the boat impresses with its sophisticated details and the possibility of customisation. The powerful 50 kW motor, optionally as an inboard or outboard motor, and the reliable battery technology stand for quality and safety.

With a top speed of 45 km/h and a range of 30 km or a range of 95 km at 10 km/h, the Tender06e achieves top values in its class.

Boat

| | |
|--------------------|----------------------------|
| Total length | 6 m |
| Maximum width | 1.7 m |
| Weight | 830 kg |
| Passenger capacity | 5 |
| GFK | Glass fibre epoxy sandwich |
